

AMENDMENTS TO THE CLAIMSLISTING OF THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

545E17
D
Claim 1 (Currently Amended). A network system ~~formed by~~ connecting a ~~selected one of a~~ plurality of user terminal devices and a network server via a known communication system, wherein each of said plurality of user terminal devices comprises:
means for retrieving information from a removable memory storing user specific information, and

means for transmitting said user specific information and information of ~~said selected one of~~ said plurality of user terminal devices used by a user as specific information when said removable memory ~~means~~ is loaded; and

said network server comprises:

means for receiving said specific information transmitted by said ~~selected one of~~ said plurality of terminal devices,

means for registering said specific information and said user specific information in relation to said specific information ~~whenever obtaining a session with said network server~~, and

means for specifying said ~~selected one of~~ said plurality of user terminal devices being used by said user by referring to said registered information ~~by memorizing said specific~~

information.

Sub E' 7
Claim 2 (Canceled).

Claim 3 (Currently Amended). The network system according to claim 1, wherein said means for registering erases said registered ~~specific~~ information when said memory means is extracted from said terminal device.

Claims 4-8 (Canceled).

Claim 9 (Currently Amended). The network system according to claim 1, wherein said network server further comprises means for sending a notification to said ~~selected~~ one of said plurality of terminal devices registered by said means for registering.
